

HARTMANN-CONCO

Sports Medicine Products That Support And Enhance Athletic Training.

- Athletic Tapes
- Wound Care
- Compression And Fixation Bandages
- Specialty Products

OUR SPORTS MEDICINE PRODUCTS PROVIDE Maximum Performance For Maximum Value.

Just like a doctor utilizes his education and experience to help a patient recover from illness or injury, certified athletic trainers use their professional skills to maintain and strengthen the physical performance of a diverse range of athletes as well as reduce the possibility of serious, life-long injuries.

At HARTMANN-CONCO, we leverage our extensive expertise and understanding of the sports medicine environment to support certified athletic trainers through a range of products that perform on and off the field, practice after practice, game after game. Whether it's our **Pro's Choice**[®] **COhesive** tape that's easy to use and provides consistent compression, or **Omnifix**[®], our latex-free

non-woven retention/abrasion tape, all our products offer maximum performance for maximum value. Our extensive line of bandages and wound care products helps you take a proactive approach to injury prevention and allows you to effectively and cost-efficiently treat those that may occur, including musculoskeletal, elbow, shoulder, knee and ankle injuries, ligament conditions, muscle strains and tendon injuries.

Put HARTMANN-CONCO **Sports Medicine Products** on your training table to deliver the care and support so crucial in competitive sports. We invite you to learn more about our **Sports Medicine Products** online at www.hartmann-conco.com or by calling Customer Service at **1-800-243-2294**.

ATHLETIC TAPES

Pro's Choice® Adhesive Latex-Free Hand-Tear Athletic Stretch Tape

- Conforms and stays securely in place during rigorous exercise
- Lightweight fabric combined with high tensile strength provides controlled stretch and compression
- Tears easily leaving a clean edge and low profile for quick and easy application
- Full unwind allows for consistent taping to the core

Pro's Choice® COhesive Hand-Tear Athletic Stretch Tape

- Adheres only to itself, never skin or hair, without pins, clips or tape
- Conforms and stays secure during rigorous exercise
- Performs wet or dry without leaving a sticky residue
- Lightweight fabric combined with high tensile strength provides controlled stretch and compression
- Tears easily leaving a clean edge and low profile for quick and easy application
- Full unwind allows for consistent taping to the core

AC-tape® Latex-Free High Strength Elastic Adhesive Tape

- All-cotton elasticity allows tape to conform to every body contour
- Woven strength with high-twist yarns provides controlled compression without restricting movement
- Heavyweight fabric and high tensile strength provides excellent support
- Finished edge reduces lint and loose threads
- Strong coated adhesive secures tape to application area

AC-tape Plus® Latex-Free High Strength Elastic Adhesive Tape

- All-cotton maximum elasticity allows tape to conform to every body contour
- Woven elastic strength with high-twist yarns provides maximum compression without restricting movement
- Heavyweight fabric and high tensile strength provide excellent support
- Feathered edges allow for athlete comfort
- Blown through adhesive provides secure fixation to the application area
- Application guideline and full unwind to wide cardboard core makes application easy

WOUND CARE

Flex-Band® Latex-Free Fabric Adhesive Bandage

- Hypoallergenic fabric is flexible and conforms to any contour
- Round, beveled edges prevent premature lifting of bandage
- Strong adhesive stays secure through post-application damp conditions such as sweat and light rain
- Absorbent island wound pad will not stick to wound
- Complete adhesive coverage around island wound pad firmly secures bandage and provides a protective seal
- Water-repellent layer protects against moisture penetration

Cosmopore® Latex-Free Adhesive Wound Dressing

- 100% cotton non-adherent island pad absorbs exudate for a cleaner wound bed
- Non-woven, flexible adhesive cover has rounded edges to prevent detachment and conforms well to body contours
- Wide adhesive border is coated with strong adhesive that stays secure through post-application damp conditions such as sweat and light rain
- Protects skin and wound area from harmful contamination and trauma
- Excellent for pre- and post-turf burn applications

Omnifix® Latex-Free Non-Woven Retention/Abrasion Tape

- Soft, flexible non-woven fabric conforms well to body contours and will not restrict movement
- Strong adhesive stays secure through post-application damp conditions such as sweat and light rain
- Wave-slit paper backing allows for quick and efficient application
- Ideal for preventing turf burns and skin abrasions
- May be used for McConnell taping method

Econolux™ Gauze Sponges

- 100% woven cotton
- Made with high quality yarn to produce high value product
- Folded edges prevent linting and unraveling
- Easy-to-open packages

AquaClear® and AquaClear® Adhesive Latex-Free Wound Dressings

- Maintains a moist wound bed without macerating surrounding skin and is an excellent choice for painful skin tears
- Transparency and Wound Measuring Grid allows the wound to be monitored without removing the dressing
- Will not stick to wound and may be changed without damaging new tissue

BANDAGES

Deluxe® LF and Deluxe® 480® LF Latex-Free Reinforced High Strength Elastic Bandages

- Woven with the finest quality yarns to provide a cool and comfortable to wear orthopedic grade bandage
- Cotton blend fabric provides superior strength and consistent elasticity, support and compression
- Deterioration resistance from ointments, medication, numerous washings and sterilization provides continued quality elasticity and compression

Co-Lastic® Cohesive Elastic Bandage/Tape

- Adheres only to itself, never skin or hair, without pins, clips or tape
- Provides non-slip, consistent compression and conforms to difficult-to-bandage areas
- Lightweight, air permeable and water resistant for athlete comfort
- Folded starting edge for quick and easy use
- Perfect on delicate or traumatized skin where tape application is not appropriate

Medi-Rip® Self-Adherent Compression Bandage

- Adheres only to itself, never skin or hair, without pins, clips or tape
- Provides non-slip support and compression and conforms easily to body contours
- Woven of 99% cotton yarn, absorbent, lightweight and comfortable to wear
- Hand-tears to desired length for easy application and use
- Secures wound dressings or used directly over cuts and scrapes to handle absorption of quick bleeds

BANDAGES - continued

Comperm® LF and Comperm®-PD LF Latex-Free High Compression Tubular Bandages

- 100% cotton, seamless, knit tubular construction for 360 degree compression and support
- Ravel-free, run-free cutability for ease of use with joint/appendage openings
- Secures without clips or tape
- Compression and support stay consistent after reapplication

Conco® and Flexicon® Latex-Free Conforming Stretch Bandages

- Soft, cotton and polyester blend material for athlete comfort
- Durable and holds dressings securely in place without slipping
- Unique filament structure and nap ensures bandage clings to itself
- Uniform weave creates a strong bandage that provides light compression and conforms to difficult-to-dress areas
- Woven edges minimize lint and unraveling
- Flexicon features a blue application guideline for consistent wrapping

SPECIALTY PRODUCTS

ElasticFoam® and FoamTrac® Foam-Backed Bandages

- ElasticFoam all-cotton elastic bandage provides non-slip, consistent support and pressure with the added gentle comfort of a foam layer
- ElasticFoam is for use in the treatment of varicosities, head, back and chest injuries, post-partum binding and injury protection
- FoamTrac non-elastic bandage provides even distribution of traction pressure over the entire limb while assuring comfort
- FoamTrac is for use in traction therapy and for use in the treatment of sprains, strains, dislocations, post-surgery and other situations requiring skin traction
- Both bandages may be washed, sterilized and reused

SPECIALTY PRODUCTS - continued

AlumaFoam® Form-Fitting Splints

- Curved Finger Splint protects and immobilizes any injured finger
- Finger Protector supports and braces finger on all sides
- Finger Cot protects fingertips
- Frog Splint protects injury site without restricting movement in non-injured fingers
- Nose Splint protects the site after surgical procedures or injuries

Stax Finger Splints Latex-Free Support and Protection

- Lightweight, flesh-colored plastic is perforated and shaped for breathability and comfort
- Protects and supports distal joint of finger in extension while permitting unrestricted movement of proximal phalangeal joint
- Normally used without padding

Non-Woven Padding Bandage Latex-Free Padding and Protection

- Provides protection to delicate and traumatized skin
- For use in any application where additional protection is required
- Not indicated for general casting

Orthopedic Felt and Foam Rubber Padding and Protection

- For use as cast padding protection under orthopedic braces and splints
- Latex-Free Orthopedic Felt may be used as foot or arch pads
- Foam Rubber may be used as protection for blisters and pressure points when immobility is essential
