*HARTMANN-CONCO leverages nearly two centuries of expertise and global resources to design, develop and distribute quality bandages, wound care and other products that support healthcare professionals in their delivery of cost-efficient and clinically-effective care for those they serve.*

**F**ew companies have the legacy of providing comprehensive **Traditional Wound Care** products like HARTMANN-CONCO. Our history began nearly 200 years ago when Paul Hartmann collaborated with renowned surgeon, Sir Joseph Lister, on a process for producing the first antiseptic wound dressing. This collaboration started a new and exciting chapter in the history of wound care.

Today, HARTMANN-CONCO leverages its long-standing expertise to assist healthcare professionals across the continuum of care in their efforts to enhance the healing process. Our extensive range of **Traditional Wound Care** products offers a combination of superior performance

and value. From our **Conco® Conforming Bandages** to our family of absorbent, non-woven **Sorbalux®** pads, sponges and dressings used to treat acute and heavily draining wounds, HARTMANN-CONCO products are a clinically-effective choice in the challenging healthcare environment. Most importantly, our products are designed with patient comfort in mind.

We invite you to learn more about our **Traditional Wound Care** products, as well as our Advanced Wound Care and Compression and Fixation Bandage products, online at [www.hartmann-conco.com](http://www.hartmann-conco.com) or by calling Customer Service at **1-800-243-2294**.

### **Sterilux®** Gauze Sponges

- 100% woven cotton, USP Type VII
- High yarn count for high absorbency
- Low-linting and dust-free packaging
- Available in trays for use with fluids and solutions
- Available with X-ray detectable thread of barium sulfate
- Ideal for debriding, wound cleansing, packing, dressing, swabbing and general wound care

### **Sterilux®** Super Sponges

- 100% woven cotton
- Pre-washed, fluff-dried and virtually lint-free
- Apply in place of multiple layers of woven or non-woven sponges
- Ideal for wound cleansing and as a primary sponge for heavily draining wounds

### **Econolux™** Gauze Sponges

- 100% woven cotton
- High quality yarn for high value product
- Folded edges prevent linting and unraveling
- Easy-to-open packages
- For use in swabbing, wound cleansing, wound dressing and mechanical and enzymatic debriding

### **Sorbalux®** All-Purpose, Drain and I.V. Sponges

- Soft, polyester/rayon non-woven material for patient comfort
- Non-woven material provides soft surface for granulating wounds
- Absorbent and fast wicking action reduces risk of infection and minimizes dressing changes
- Drain and I.V. sponges feature pre-cut slits to fit neatly around tubes for efficient patient care and to eliminate contamination caused by loose ends of manually cut sponges

# OUR TRADITIONAL WOUND CARE PRODUCTS

## Are Here To Help You Heal.

### Sorbalux® ABD

#### Latex-Free Abdominal Pad

- Soft, non-woven outer layer for patient comfort
- Cellulose inner layer provides maximum absorbency over the entire pad
- Securely sealed on each side to prevent contamination
- Features blue guide line to ensure proper application

### Sorbalux® NON-ADHERENT

#### Latex-Free Non-Adherent Dressing

- Smooth, perforated polyester film outer surface allows fluids to pass through
- Non-adherent film outer surface does not disrupt tissue healing by sticking to the wound
- Polyester/rayon inner layer provides efficient absorbency
- Dressing may be cut to fit various wound sizes with virtually no loose fibers

### Sorbalux®

#### Cover Sponges

- Soft, non-woven rayon outer layer for patient comfort
- Cellulose wadding inner layers provide excellent absorbency
- Virtually lint-free to reduce the risk of wound contamination
- Provides more absorbency and retains more fluid than standard woven gauze and non-woven sponges

### Cosmopore®

#### Latex-Free Adhesive Wound Dressing

- 100% cotton non-adherent island pad absorbs exudate for a cleaner wound bed
- Non-woven adhesive cover has rounded edges to prevent detachment
- Cover is coated with a strong non-sensitizing polyacrylate adhesive that is well tolerated by the skin
- Wide adhesive border ensures excellent adhesion

**Omnifix®**  
Latex-Free Non-Woven Dressing Retention Tape

- Soft, flexible non-woven fabric for patient comfort
- Secure, strong and non-sensitizing acrylic adhesive that is well tolerated by the skin
- Air and water vapor permeable for optimal healing environment
- Wave-slit paper backing for easy and efficient application

**Flexicon® and Flexicon® Clean Wrap**  
Latex-Free Conforming Stretch Bandages

- Soft, rayon and polyester blend material for patient comfort
- Durable and holds dressings securely in place without slipping
- Unique filament structure and nap ensures that the bandage will cling to itself
- Uniform weave creates a strong bandage that provides light compression and conforms to difficult-to-dress areas
- Woven edges minimize lint and unraveling
- Blue application guideline provided for consistent wrapping

**Flex-Band®**  
Latex-Free Fabric Adhesive Bandage

- Round, beveled edges prevent premature lifting of bandage
- Hypoallergenic fabric bandages are flexible and conform to any contour
- Absorbent island wound pad does not stick to wound
- Complete adhesive coverage around island wound pad firmly secures bandage and provides a protective seal
- Water-repellent layer protects against moisture penetration

**Conco®**  
Latex-Free Conforming Stretch Bandage

- Soft, rayon and polyester blend material for patient comfort
- Durable and holds dressings securely in place without slipping
- Unique filament structure and nap ensures that the bandage will cling to itself
- Uniform weave creates a strong bandage that provides light compression and conforms to difficult-to-dress areas
- Woven edges minimize lint and unraveling

**Sterilux®**  
Latex-Free Bulky Gauze Bandage

- 100% woven cotton with high yarn count for absorbency
- Cotton allows for fast wicking of fluids and excellent absorbency
- Open weave offers patient comfort
- Six-ply construction offers protection and padding
- Finished edges reduce lint and loose ends
