Compression And Fixation Bandages

Enhancing Healing Enhancing Lives

- Elastic Bandages
- Cohesive Bandages
- Compression Bandages
- Conforming Bandages
- Specialty Bandages

UNWRAP THE POWER OF OUR Compression And Fixation Bandages.

Healthcare professionals across the continuum of care have relied on the superior quality and value of HARTMANN-CONCO **Compression and Fixation Bandages** for more than 50 years. This outstanding legacy has endured because of our extensive experience and knowledge of the healthcare environment and evolving treatment protocols, as well as a strong commitment to superior customer service.

Because of our expertise and broad range of **Compression and Fixation Bandages**, we consider ourselves the “first family” of bandages. We’re proud of our reputation as

the leading source for bandage products that treat a variety of orthopedic, venous and lymphatic conditions. Our bandages provide accurate stretch, compression, comfort and support for optimal healing. From our basic bandage products including **Deluxe® LF** and **Flexicon®**, to our more highly specialized products such as **FourPress™** and **Esmark LF**, HARTMANN-CONCO bandages are cost-efficient and provide superior performance. We invite you to learn more about our **Compression and Fixation Bandages** as well as our Traditional and Advanced Wound Care products online at www.hartmann-conco.com or by calling Customer Service at **1-800-243-2294**.

ELASTIC BANDAGES

Deluxe® LF and Deluxe® 480® LF Latex-Free Reinforced Elastic Bandage

- Orthopedic grade bandage woven with the finest quality yarns to provide total patient comfort
- Superior strength and consistent elasticity, support and compression
- Resists deterioration from ointments and medication and withstands numerous washings and sterilization to provide continued quality elasticity and compression
- Ideal for limb support resulting from injury, illness or surgery
- For use in the treatment of varicosities, edema, poor peripheral circulation, tendonitis, tenosynovitis sprains, strains and fracture reduction as well as for use as amputation compression

EZe-Band® LF Latex-Free Self-Closure Elastic Bandage

- Orthopedic grade knitted bandage with unique construction that provides superior absorbency and breathability
- Double closure delivers maximum control and consistent compression
- Front closure anchors the bandage quickly and easily on the first wrap, while the end closure secures the bandage at any given point without pins, clips or tape
- Bandage provides patient comfort and is durable to be used again and again
- For use in applications that require controlled, consistent compression and support

Contex® LF Latex-Free Reinforced Elastic Bandage

- Premium grade woven bandage with high cotton content that makes it cool and comfortable to wear for patient comfort
- Provides controlled stretch for consistent support
- Ideal for securing splints, dressings, ice packs and other devices
- For use in treating sprains, strains, tendonitis, torn or injured ligaments and edema reduction

Shur-Band® LF and Shur-Band® Ice Wrap LF Latex-Free Self-Closure Elastic Bandage And Ice Wrap

- Premium grade bandage knitted with high quality yarn to provide superior, consistent support and compression
- Self-closure flap fastens anywhere on the bandage for quick, easy and secure use without pins, clips or tape
- Ice Wrap is designed with sewn pouch to hold standard size instant use or reusable hot and cold packs
- For support, compression or securing, and for use in the treatment of varicosities, sprains and torn ligaments

REB® LF and Econo-Wrap® LF Latex-Free Reinforced Elastic Bandage

- Standard grade lightweight all-purpose woven bandages that are cool and comfortable to wear
- Bandage weave offers balanced stretch and compression
- Ideal for providing general compression and securing of splints, dressings and ice packs
- For use in securing dressings with compression and the treatment of varicosities, sprains, strains, torn or injured ligaments or prevention of re-injury to weakened joints

Esmark LF Latex-Free Bandage

- Sterile and individually wrapped for use in surgical environments
- Provides maximum and consistent compression to extremities for exsanguination prior to surgery
- Provides consistent 400% elongation for ideal compression and ease of application
- For use in surgical procedures especially joint replacement

CEB® Latex-Free Cotton Elastic Bandage

- Premium grade bandage woven with high quality cotton yarns to form a porous bandage that is cool and comfortable to wear
- All-cotton weave and non-raveling feathered edge do not constrict for proper treatment and patient comfort
- Withstands washing as well as sterilization without affecting elasticity
- For use as general support and compression, post-treatment care of bone fractures and dislocations and in the treatment of sprains, strains, tendonitis and tenosynovitis

COHESIVE BANDAGES

Medi-Rip® Self-Adherent Compression Bandage

- Premium grade cohesive bandage that adheres only to itself, never skin or hair, without pins, clips or tape
- Provides superior support and compression and conforms easily to body contours
- Woven of 99% cotton yarn, it is absorbent, lightweight and comfortable to wear
- Hand-tears to desired length for easy application and use
- For use in non-slip support and compression applications, edema reduction, relief bandaging of joint and other difficult-to-wrap areas, and as a replacement for adhesive tape and bandages in post-fracture treatment

Co-Lastic® Cohesive Elastic Bandage

- Standard grade cohesive bandage that adheres only to itself, never skin or hair, without pins, clips or tape
- Provides controlled, consistent compression and conforms to difficult-to-bandage areas
- Lightweight, air permeable and water resistant for patient comfort
- Folded starting edge for quick and easy use
- For use in all applications that require securing, protection, support and compression

Stat-Wrap® Cohesive Gauze Bandage

- Premium grade cohesive gauze that adheres only to itself, never skin or hair, without pins, clips or tape
- Light support to secure primary dressings
- Soft, gentle and absorbent, even in wet environments
- Easy to use in difficult-to-bandage areas
- For use in securing primary dressings, splints, IV's leads and catheters

Co-Wrap® Self-Adherent Bandage

- Standard grade cohesive bandage that adheres only to itself, never skin or hair, without pins, clips or tape
- Provides light, consistent compression and securing capabilities
- Cool, comfortable and gentle for patient comfort
- Ideal for delicate or traumatized skin and in wet environments when tape cannot be used
- For use as a secondary bandage, a securing bandage for I.V.'s and for overwrapping primary dressings

COMPRESSION BANDAGES

ThreePress™ and FourPress™ Latex-Free Compression Bandage Systems

- Safe and effective compression therapy for venous leg ulcers
- Produces sub-bandage pressure of 30-40 mmHg when wrapped as indicated
- Provides sustained compression for up to seven days when applied as directed

LoPress® Latex-Free Inelastic Compression Bandage

- Premium grade inelastic weave or short stretch reduces risk of constriction while providing maximum resistance
- Designed for repeated use, LoPress can be sterilized and withstands numerous washings
- 100% cotton makes it cool and comfortable to wear
- Ideal for treating lymphedema

Comperm® LF and Comperm® PD LF Latex-Free Tubular Bandage And Padded Tubular Bandage

- 100% cotton, seamless, knit tubular construction for 360 degree compression and support
- Ravel-free, run-free cutability for ease of use for joint/appendage openings
- Compression and support stay consistent after reapplication and bandage secures without clips and tape
- For use in treating soft tissue injuries, edema reduction, sports injuries, post-burn scarring, sprains, strains and for post-cast support, securing wound dressings and covering zinc oxide or plaster dressings

Flexi-Tube® Latex-Free Tubular Gauze Bandage

- Provides protection to delicate skin
- Efficient cutability for ease of use for joint/appendage openings
- For use in protecting and securing dressing applications
- For use as a first layer for lymphedema bandaging

COMPRESSION BANDAGES - continued

Econo-Paste® and Econo-Paste® Plus Calamine Latex-Free Conforming Zinc-Oxide Paste Bandages

- Vacuum-sealed foil pouch is easy to open and ensures a longer shelf life
- Innovative plastic core makes application easy
- Made of lightweight cotton gauze that conforms easily to the body
- Non-hardening zinc-oxide paste soothes inflammations, rashes, ulcers and related conditions

CONFORMING BANDAGES

Sterilux® Latex-Free Bulky Gauze Bandage

- 100% woven cotton with high yarn count for absorbency
- Cotton allows for fast wicking of fluids and excellent absorbency
- Open weave offers patient comfort
- Six-ply construction offers protection and padding
- Finished edges reduce lint and loose ends

Flexicon® and Flexicon® Clean Wrap Latex-Free Conforming Stretch Bandages

- Soft, cotton and polyester blend material for patient comfort
- Durable and holds dressings securely in place without slipping
- Unique filament structure and nap ensures the bandage will cling to itself
- Uniform weave creates a strong bandage that provides light compression and conforms to difficult-to-dress areas
- Woven edges minimize lint and unraveling
- Blue application guideline provided for consistent wrapping

Conco® Latex-Free Conforming Stretch Bandage

- Soft, cotton and polyester blend material for patient comfort
- Durable and holds dressings securely in place without slipping
- Unique filament structure and nap ensures the bandage will cling to itself
- Uniform weave creates a strong bandage that provides light compression and conforms to difficult-to-dress areas
- Woven edges minimize lint and unraveling

SPECIALTY BANDAGES

ElasticFoam® and FoamTrac® Foam-Backed Bandages

- ElasticFoam all-cotton elastic bandage provides non-slip, consistent support and pressure with the added gentle comfort of a foam layer
- ElasticFoam is for use in the treatment of varicosities, head, back and chest injuries, post-partum binding and injury protection
- FoamTrac non-elastic bandage provides even distribution of traction pressure over the entire limb while assuring patient comfort
- FoamTrac is for use in traction therapy and for use in the treatment of sprains, strains, dislocations, post-surgery and other situations requiring skin traction
- Both bandages may be washed, sterilized and reused

Orthopedic Felt and Foam Rubber Padding and Protection

- For use as cast padding protection under orthopedic braces and splints
- Latex-Free Orthopedic Felt may be used as foot or arch pads
- Foam Rubber may be used as protection for blisters and pressure points when immobility is essential

Non-Woven Padding Bandage Latex-Free Padding and Protection

- Provides protection to delicate and traumatized skin
- For use as a second layer for lymphedema bandaging
- For use in any application where additional protection is required
- Not indicated for general casting
